

CVO's Message

Dear friends

The Central Vigilance Commission (CVC) mandates observation of Vigilance Awareness Week every year in its endeavor to fight corruption. The theme chosen for this year's Vigilance Awareness Week is **“सत्यानिष्ठा की संस्कृति से राष्ट्र की समृद्धि; Culture of Integrity for Nation's Prosperity”**

While reaffirming our commitment by saying no to corruption and committing to the Nation, we seek the support and participation of all stake holders towards active co-operation in fighting the menace of corruption and bringing about transparency.

A very important function of Vigilance is to help the organization to build efficient & sound processes, systems and procedures thus ensuring transparency and non-discretionary application of rules.

Vigilance is instrumental in creating organizational awareness on the core values of our company and the importance of demonstrating them through our deeds and actions.

On the occasion of Vigilance Awareness Week 2024, I would exhort all employees for an organizational culture based on sound governance, integrity and trust. My urge to every employee is to be aware and understand the functioning of Vigilance which will help in building a transparent and corruption free organization.

I further request all employees and his/her family members to take the integrity pledge (online) available in the CVC website to fight against corruption and spread the message of the Vigilance Awareness Week.

Abhishek Ranjan, IOFS
Chief Vigilance Officer
